INDEX, SUBJECT* — INDEKS, ONDERWEREP

Volume 78 · Jaargang 78 – 2007
No. 1 — March · Maart: 1–53
No. 2 — June · Junie: 55–113
No. 3 — September: 115–182
No. 4 — December · Desember: 183–231

Anaesthesiology

Pre-anaesthetic screening of geriatric dogs ........................................... 31
Comparison of quality of induction of anaesthesia between intramuscularly administered ketamine, intravenously administered ketamine and intravenously administered propofol in xylazine premedicated cats ........................................... 201

Anatomy

Gross morphological features of plexus brachialis in the chinchilla (Chinchilla lanigera) ................................................................. 21
Differences in stride between healthy ostriches (Struthio camelus) and those affected by tibiotarsal rotation ........................................... 52

Avian (poultry, ostriches, cage birds)

A preliminary study on normal electrocardiographic parameters of ostriches (Struthio camelus) ......................................................... 46
Differences in stride between healthy ostriches (Struthio camelus) and those affected by tibiotarsal rotation ........................................... 52
Some fungi, zearalenone and other mycotoxins in chicken rations, stock feedstuffs, lucerne and pasture grasses in the communal farming area of Rhenosterkop in South Africa ........................................... 69
Evaluation of the application of a thermostable Newcastle disease vaccine by community volunteers in the North West Province of South Africa ........................................... 158
Factors related to shell deaths during artificial incubation of ostrich eggs ........................................... 195

Bacterial, mycoplasmal and fungal diseases

Eustachian tube diverticulum chondroids and neck abscessation in a case of Streptococcus equi subsp. equi ........................................... 166
Anaerobic bacterial pericardial effusion in a cat ........................................... 175
Atypical dermatophilosis of sheep in Kenya ........................................... 178

Bovine

The reproductive performance of dairy cows with anovulatory anoestrus that were injected with either gonadotrophin-releasing hormone or oestradiol benzoate as part of a re-treatment process after insemination ........................................... 6
Seroprevalence of Babesia bigemina in smallholder dairy cattle in Tanzania and associated risk factors ........................................... 15
Effects of subclinical bovine leukemia virus infection on some production parameters in a dairy farm in southern Turkey ........................................... 130
An outbreak of perirenal oedema syndrome in cattle associated with ingestion of pigweed (Amaranthus hybridus L) ........................................... 171
A questionnaire survey of perception and preventive measures related to animal health amongst cattle owners of rural communities in KwaZulu-Natal, South Africa ........................................... 205
Livestock production — Man must measure ........................................... 224

Canine

Molecular characterisation of Babesia gibsoni infection from a Pit-bull terrier pup recently imported into South Africa ........................................... 2
Pre-anaesthetic screening of geriatric dogs ........................................... 31
Boomslang envenomation in 2 dogs in KwaZulu-Natal, South Africa ........................................... 49
Incidence of canine elbow dysplasia in South Africa ........................................... 59
A field trial evaluation of the prophylactic efficacy of Amitraz-impregnated collars against canine babesiosis (Babesia canis rossi) in South Africa ........................................... 63
Canine subclinical prostatic disease: histological prevalence and validity of digital rectal examination as a screening test ........................................... 66
Multiple cutaneous inverted papillomas in a dog ........................................... 221
The response of the pituitary-adrenal and pituitary-thyroidal axes to the plasma glucose perturbations seen in Babesia canis rossi babesiosis ........................................... 215
Acute normovolaemic haemodilution – Is it a solution to reduce perioperative blood transfusions? ........................................... 188

Caprine

Benefits of urea-molasses block supplementation and symptomatic and tactical anthelmintic treatments of communally grazed indigenous goats in the Bulwer area, KwaZulu-Natal Province, South Africa ........................................... 81
A preliminary report on the use of FAMACHA® for haemonchosis in goats in the Eastern Cape Province of South Africa during the late autumn/early winter period ........................................... 90

Clinical pathology

ACTH stimulation test in the captive cheetah (Acinonyx jubatus) ........................................... 133
Normal haematology and blood biochemistry of wild Nile crocodiles (Crocodylus niloticus) in the Okavango Delta, Botswana ........................................... 137

*Parasitological Society of Southern Africa congress abstracts are indexed under Parasitology.
Education

Veterinary education in South Africa: the Classes of 1930 and 1931 ........................................ 56
Building capacity for improved veterinary epideimiosurveillance in southern Africa ................. 92
Veterinary education in South Africa: The Classes of 1932 and 1933 ....................................... 185
Strictly Scientific and Practical Sense. A century of the Central Veterinary Institute in the Netherlands, 1904–2004 ........................................ 181

Endocrinology

The reproductive performance of dairy cows with anovulatory anoestrus that were injected with either gonadotrophin-releasing hormone or oestriadi benzoate as part of a re-treatment process after insemination .......... 6
Implementing immunocontraception in free-ranging African elephants at Makalali Conservancy .... 25

Epidemiology

Parasitology and urban livestock farming in Nigeria: prevalence of ova in faecal and soil samples and animal ectoparasites in Makurdi ............................................................... 40
Building capacity for improved veterinary epideimiosurveillance in southern Africa ................. 92
Alternatives to animal disposal including the use of foresight technology and agri-intelligence ........ 120
Request for retraction of published statement on EIA .............................................................. 184

Equine

An investigation of equine infectious anaemia infection in the Central Anatolia region of Turkey ... 12
Admission clinicopathological data, length of stay, cost and mortality in an equine neonatal intensive care unit ...................................................... 153
Eustachian tube diverticulum chondroids and neck abscessation in a case of Streptococcus equi subsp. equi ...................................................... 166
Request for retraction of published statement on EIA .............................................................. 184

Feline

Anaerobic bacterial pericardial effusion in a cat ........................................................................ 175
Comparison of quality of induction of anaesthesia between intramuscularly administered ketamine, intravenously administered ketamine and intravenously administered propofol in xylazine premedicated cats ........................................ 201
Acute normovolaemic haemodilution – Is it a solution to reduce peri-operative blood transfusions? ......................................................................................................................... 188

History

Veterinary education in South Africa: the Classes of 1930 and 1931 ........................................ 56
Veterinary education in South Africa: The Classes of 1932 and 1933 ....................................... 185
Strictly Scientific and Practical Sense. A century of the Central Veterinary Institute in the Netherlands, 1904–2004 ........................................ 181

Medicine

Results of wellness examinations of 28 African hunting dog (Lycaon pictus) puppies at the Denver Zoological Foundation ...................................................... 36
A preliminary study on normal electrocardiographic parameters of ostriches (Struthio camelus) ...................................................... 46
Boomslang envenomation in 2 dogs in KwaZulu-Natal, South Africa ............................................. 49
Canine subclinical prostatic disease: histological prevalence and validity of digital rectal examination as a screening test ...................................................... 66
The response of the pituitary-adrenal and pituitary-thyroidal axes to the plasma glucose perturbations seen in Babesia canis rossi babesiosis ...................................................... 215
Acute normovolaemic haemodilution – Is it a solution to reduce peri-operative blood transfusions? ......................................................................................................................... 188

Neoplasia

Prevalence and body distribution of sarcoids in South African Cape mountain zebra (Equus zebra zebra) ...................................................... 145
Multiple cutaneous inverted papillomas in a dog ........................................................................ 221

Nutrition

Some fungi, zearalenone and other mycotoxins in chicken rations, stock feedstuffs, lucerne and pasture grasses in the communal farming area of Rhenosterkop in South Africa ...................................................... 69
Benefits of urea-molasses block supplementation and symptomatic and tactical anthelmintic treatments of communally grazed indigenous goats in the Bulwer area, KwaZulu-Natal Province, South Africa ...................................................... 81

Ovine

Seroprevalence of toxoplasmosis in sheep in South Africa ...................................................... 116
Atypical dermatophilosis of sheep in Kenya ............................................................................. 178
The effect of cholecystokinin peptides on ovine duodeno-jejunal slow waves with and without pretreatment with proglumide ................................................................................................. 209

Parasitology

Parasitology and urban livestock farming in Nigeria: prevalence of ova in faecal and soil samples and animal ectoparasites in Makurdi ...................................................... 40
A field trial evaluation of the prophylactic efficacy of Amitraz-impregnated collars against canine babesiosis (Babesia canis rossi) in South Africa ...................................................... 63
Benefits of urea-molasses block supplementation and tactical anthelmintic treatment of communally grazed indigenous goats in the Bulwer area, KwaZulu-Natal Province, South Africa ................................. 109
The internal and external parasite database 2005 for reserves in the Free State province ................................................................. 109
A morphological description of a *Diplazous* species (Monogenea) on the gills of *Labeo rosae* in the Olifants River ............................. 110

**Posters**

Ecological parameters of *Lamproplogena hoi* Dippenaar et al., 2001 (Copepoda: Lernaeidae) infection on the Bushveld Smallscale Yellowfish, *Laboobarbus polylepis* (Boulenger, 1907) ................................................ 110
A survey of plant-parasitic fungi occurring on Namibian *Acacia* species ................................................................. 110
A comparison of the intestinal helmint communities of zebra species in southern Africa ................................................................. 110
A new genus and species of gnathiid isopod (Crustacea: Isopoda: Gnathiidae) from southern Africa ................................................................. 110
Aspects of the feeding biology of *Lamproplogena clariae* (Fryer, 1956) ................................................................. 111
Helmith parasites of kudu, *Tragelaphus strepsiceros*, from mopani veld in Limpopo Province ................................................................. 111
Adding to the few – A new, possibly raffietiellid pentastomid parasite from a gecko ................................................................. 111
Ecological aspects of *Bothriocephalus acheilognathi* Yamaguti, 1934 in the Vaal Dam ................................................................. 111
Efficiency and persistency evaluations of an injectable ivermectin abamectin formulation against an induced nematode and a natural *Rhinoccephalus* (Boophilus) sp. tick infestation in cattle ................................................................. 112
Prevalence of *Entamoeba histolytica* and *Entamoeba dispers* among males and females in KwaZulu-Natal ................................................................. 112
A novel method of administering an endocticide, abamectin, in game ................................................................. 112
Remote treatment of ticks ................................................................. 112
Persistent acaricidal efficacy of ivermectin against 1-host ticks on cattle ................................................................. 113
Cambrian Pentastomida – new finds contribute to understanding morphology and ontogeny early in the evolution of this group of parasites ................................................................. 113

**Pathology**

Prevalence and body distribution of sarcoids in South African Cape mountain zebra (*Equus zebra zebra*) ................................................................. 145
Multiple cutaneous inverted papillomas in a dog ................................................................. 221

**Pharmacology**

ACTH stimulation test in the captive cheetah (*Acinonyx jubatus*) ................................................................. 133
The effect of cholecystokinin peptides on ovine duodeno-jejunal slow waves with and without pretreatment with proglumide ................................................................. 209

**Primary animal health care**

Evaluation of the application of a thermostable Newcastle disease vaccine by community volunteers in the North West Province of South Africa ................................................................. 158
A questionnaire survey of perception and preventive measures related to animal health amongst cattle owners of rural communities in KwaZulu-Natal, South Africa ................................................................. 205

**Production**

Seroprevalence of *Babesia bigemina* in smallholder dairy cattle in Tanzania and associated risk factors ................................................................. 15
Benefits of urea-molasses block supplementation and symptomatic and tactical anthelmintic treatments of communally grazed indigenous goats in the Bulwer area, KwaZulu-Natal Province, South Africa ................................................................. 81
Effects of subclinical bovine leukemia virus infection on some production parameters in a dairy farm in southern Turkey ................................................................. 130
Factors related to shell deaths during artificial incubation of ostrich eggs ................................................................. 195
Livestock production — Man must measure ................................................................. 224

**Protozoal diseases**

Molecular characterisation of *Babesia gibsoni* infection from a Pit-bull terrier pup recently imported into South Africa ................................................................. 2
Seroprevalence of *Babesia bigemina* in smallholder dairy cattle in Tanzania and associated risk factors ................................................................. 15
A field trial evaluation of the prophylactic efficacy of Amitraz-impregnated collars against canine babesiosis (*Babesia canis rossi*) in South Africa ................................................................. 63
Seroprevalence of toxoplasmosis in sheep in South Africa ................................................................. 116
The response of the pituitary-adrenal and pituitary-thyroidal axes to the plasma glucose perturbations seen in *Babesia canis rossi* babesiosis ................................................................. 215

**Public health**

Evaluation of the application of a thermostable Newcastle disease vaccine by community volunteers in the North West Province of South Africa ................................................................. 158
Alternatives to animal disposal including the use of foresight technology and agri-intelligence ................................................................. 120

**Radiology**

Incidence of canine elbow dysplasia in South Africa ................................................................. 59

**Reproduction**

The reproductive performance of dairy cows with anovulatory anoestrus that were injected with either gonadotrophin-releasing hormone or oestradiol benzoate as part of a re-treatment process after insemination ................................................................. 6
Implementing immunocontraception in free-ranging African elephants at Makalali Conservancy .................................................. 25

Surgery
Incidence of canine elbow dysplasia in South Africa .................................................. 59
Tusklessness and tusk fractures in free-ranging African savanna elephants (*Loxodonta africana*) .................................................. 75

Toxicology
Some fungi, zearalenone and other mycotoxins in chicken rations, stock feedstuffs, lucerne and pasture grasses in the communal farming area of Rhenosterkop in South Africa .................................................. 69
The toxicity of *Senecio inaequidens* DC. .................................................. 121
An outbreak of perirenal oedema syndrome in cattle associated with ingestion of pigweed (*Amaranthus hybridus* L.) .............................. 171

Viral diseases
An investigation of equine infectious anaemia infection in the Central Anatolia region of Turkey .................................................. 12
Effects of subclinical bovine leukemia virus infection on some production parameters in a dairy farm in southern Turkey .................................................. 130
Evaluation of the application of a thermostable Newcastle disease vaccine by community volunteers in the North West Province of South Africa .................................................. 158
Request for retraction of published statement on EIA .................................................. 184

Wildlife / Exotic diseases
Gross morphological features of *plexus brachialis* in the chinchilla (*Chinchilla lanigera*) .................................................. 21
Implementing immunocontraception in free-ranging African elephants at Makalali Conservancy .................................................. 25
Results of wellness examinations of 28 African hunting dog (*Lycaon pictus*) puppies at the Denver Zoological Foundation .................................................. 36
Tusklessness and tusk fractures in free-ranging African savanna elephants (*Loxodonta africana*) .................................................. 75
ACTH stimulation test in the captive cheetah (*Acinonyx jubatus*) .................................................. 133
Normal haematology and blood biochemistry of wild Nile crocodiles (*Crocodylus niloticus*) in the Okavango Delta, Botswana .................................................. 137
Prevalence and body distribution of sarcoids in South African Cape mountain zebra (*Equus zebra zebra*) .................................................. 145
Hyperzincæmia in a pet African giant rat (*Cricetomys gambianus* Waterhouse, 1840) .................................................. 163

Book reviews
Alternatives to animal disposal including the use of foresight technology and agri-intelligence .................................................. 120
Strictly Scientific and Practical Sense. A century of the Central Veterinary Institute in the Netherlands, 1904–2004 .................................................. 181
Livestock production — Man must measure .................................................. 224
