Parasitology
A primary animal health care approach to treatment and control of flea (*Ctenocephalides felis*) infestation in indigenous goats kept on communal grazing ................................................................. 21
Possible dissemination of eggs of whipworm (*Trichuris trichiura*) and roundworm (*Ascaris lumbricoides*) by wind in the Western Cape [abstract] ................................................................. 43
Morphological anomalies in *Mugicola* sp. [abstract] ......................................................... 43
The impact of immune evasion/suppression in the expression of cross-resistance in rabbits and calves [abstract] .................. 43
Additional features of *Kroyeria dispur* Wilson, 1935 (Kroyeriidae, Copepoda) from the tiger shark *Galeocerdo cuvier* [abstract] .... 44
Severe and frequent trichuriosis and ascariosis in Khayelitsha children [abstract] ................................................................. 44
The morphology of Haller’s organ in the yellow dog tick (*Haemaphysalis leachi*) [abstract] ................................................................. 44
SEM observations on the rare equid-sucking louse *Ratemia squamulata* (Neumann) [abstract] ................................................................. 44
Perceptions about malaria transmission and control using mosquito-repellent plants in Mandeya: relevance to malaria control [abstract] .... 46
A morphological comparison between ergasilids from two mormyrid species from the Okavango Delta [abstract] .......... 46
Control of the blackfly, *Simulium chatteri*, in the Orange River, South Africa [abstract] .................. 46
DNA probe classification of clinical patterns of blindness in Nigeria [abstract] ................................................................. 47
Morphological aspects of a *Lamprologus* sp. (Copepoda: Lernaeidae) from the African pike, *Hepsetus odoe*, from the Okavango River in Botswana [abstract] ................................................................. 47
Construction of parasite distribution maps and their use for control measures [abstract] ................................................................. 48
Scanning electron microscope study on the morphology of an *Ergasilus* from *Synodontis nigrmaculatus* from the Okavango Delta [abstract] ................................................................. 49
Evaluation of biological assessment indices in the Olifants River system [abstract] ................................................................. 49
A preliminary attempt to use climate data and satellite imagery to model the abundance and distribution of *Culicoides imicola* (Diptera: Ceratopogonidae) in southern Africa ................................................................. 80
Helminth parasites of dogs from two resource-limited communities in South Africa ................................................................. 92
Workshop discusses priorities in veterinary helminthology for South Africa ................................................................. 104
A survey on environmental contamination of suburban parks and playgrounds in Harare, Zimbabwe, with canine helminths of zoonotic significance ................................................................. 119
Pathology
Spinal nephroblastoma in an Irish wolfhound ................................................................. 25
Cryptococcosis in captive cheetah (*Acinonyx jubatus*): two cases ................................................................. 35
*Chlamydia*-induced septic polyarthritis in a dog ................................................................. 40
Mortality in stall-housed pigs and the results of pathological examination [abstract] ................................................................. 51
Renal pathology in working dogs in the South African National Defence Force ................................................................. 158
Teat lesions and their relationship to intramammary infections in small-scale dairy farms in Kiambu district in Kenya ................................................................. 156
Pharmacology
Comments on ‘Ketamine hydrochloride – an adjunct for analgesia in dogs with burn wounds’ . ................................................................. 2
In reply to J Still ................................................................. 3
To determine the effect of rifampicin and ethambutol on the malaria parasite *Plasmodium falciparum* [abstract] ................................................................. 47
Antimalarial activity in crude extracts of South African plants [abstract] ................................................................. 48
The effects of curdian sulphate on the in vitro development of *Plasmodium falciparum* [abstract] ................................................................. 48
The pharmacology of halogenated salicylanilides and their anthelmintic use in animals ................................................................. 61
Relative bioavailability of rafoxanide following intraruminal and intra-abomasal administration in sheep ................................................................. 71
Intravascular plasma disposition and salivary secretion of closantel and rafoxanide in sheep ................................................................. 75
The sedative and analgesic effects of detomidine-butoxphenol and detomidine alone in donkeys ................................................................. 112
Observations on some cardiopulmonary effects of midazolam, xylazine and a midazolam/ketamine combination in the goat ................................................................. 122
Drug choice and therapeutic drug monitoring in the management of canine primary epilepsy ................................................................. 172
Physiology
An experimental rat model of salt-sensitive hypertension: biomedical and morphological parameters and sympathetic nervous system ................................................................. 14
The effect of gestation and lactation on bone calcium, phosphorus and magnesium in dairy cows ................................................................. 142
The effect of an angiotensin-converting enzyme inhibitor on water and electrolyte balance in water-restricted sheep ................................................................. 147
Primary animal health care
A primary animal health care approach to treatment and control of flea (*Ctenocephalides felis*) infestation in indigenous goats kept on communal grazing ................................................................. 21
Production
Rural and commercial beef cattle production in the Northern Province [abstract] ................................................................. 51
Mortality in stall-housed pigs and the results of pathological examination [abstract] ................................................................. 51
Protozoal diseases
Semen characteristics of goats with subacute, acute and chronic besnoitiosis ................................................................. 18
Prevalence of *Giardia* infection in children of five communities in South Africa [abstract] ................................................................. 44
Collaborative project between University of Minnesota, Minneapolis, and Amoebiasis Research Programme, South African Medical Research Council [abstract] 44
Occurrence and diversity of coccidia in indigenous, Saanen and cross-bred goats in South Africa [abstract] 45
Protective immunity against Entamoeba dispar following Entamoeba histolytica infection [abstract] 45
A novel method for quantification of Giardia cysts in water samples [abstract] 45
In vitro culture and isoenzyme analysis of Giardia intestinalis [abstract] 45
Perceptions about malaria transmission and control using mosquito-repellent plants in Mandeya: relevance to malaria control [abstract] 46
The antimalarial effect of retinoids on Plasmodium falciparum [abstract] 46
The effect of cyclin-dependent kinase inhibitors on Plasmodium falciparum [abstract] 46
do to the effect of rifampicin and ethambutol on the malaria parasite Plasmodium falciparum [abstract] 47
Antimalarial activity in crude extracts of South African plants [abstract] 48
The effects of curdul sulfate on the in vitro development of Plasmodium falciparum [abstract] 48
Comparative assessment of Robinson’s and TYSGM-9 culture media for the isolation and short-term growth of Entamoeba histolytica and Entamoeba dispar [abstract] 48
A simple and effective method for the cryopreservation of axenic Entamoeba histolytica [abstract] 48
The effect of ferric and ferrous ion-chelating agents on the in vitro growth of Plasmodium falciparum [abstract] 49
The diagnosis of Babesia gibsoni in imported dogs [abstract] 56
A focus of feline babesiosis at Kaapschehoop on the Mpumalanga escarpment. 60
Could treatment of pregnant mares prevent abortions due to equine piroplasmosis? 90
Prevalence of besnoitiosis in domestic ruminants in Kenya: a preliminary survey 151
Experimental transmission of Besnoitia caprae in goats 161

Radiology
Vacuum phenomenon in equine carpal, metacarpophalangeal and metatarsophalangeal joints 5

Research methodology
A photographic method to record the ecological changes occurring on a communal grazing area in South Africa during a 2-year field survey [abstract] 43
Participatory needs assessment and extension [abstract] 50

Reproduction
Semen characteristics of goats with subacute, acute and chronic besnoitiosis 18
Could treatment of pregnant mares prevent abortions due to equine piroplasmosis? 90
Hysterotomy by a colpotomy approach for treatment of foetal mummification in a cow 127
Trans-vaginal oocyte retrieval and subsequent in vitro production of embryos from a cow involuntarily culled 130
The effect of gestation and lactation on bone calcium, phosphorus and magnesium in dairy cows 142

Rickettsial diseases
Coxiella ruminantium infection in an African nature reserve [abstract]. 47

Surgery
Spinal nephroblastoma in an Irish wolfhound 25
Chlamydia-induced septic polyarthritis in a dog 40
Hysterotomy by a colpotomy approach for treatment of foetal mummification in a cow 127

Toxicology
Combined borehole water and phytogenous oxalate poisoning of cattle in the Northern Province of South Africa [abstract] 56
Gousiekte in boer goats in the Camperdown district of KwaZulu-Natal, caused by ingestion of Pachystigma latifolium [abstract] 56
Monensin poisoning in ostriches 140
Water intoxication in cattle 177

Veterinary education and extension
Continuing education and postgraduate training in veterinary science: a modular approach [abstract] 50
Community services projects: Gauteng Veterinary Services [abstract] 51

Veterinary public health/community health
A survey on environmental contamination of suburban parks and playgrounds in Harare, Zimbabwe, with canine helminths of zoonotic significance 119

Virology
The viruses of summer 1996 and 1997 [abstract] 51
African horsesickness: control measures [abstract] 52
Bovine malignant catarrh: investigation into an outbreak on Telperion farm, Witbank district, Mpumalanga [abstract] 52
An outbreak of Wesselsbron disease in boer goats [abstract] 52
Rabies in Bushmanland [abstract] 53
Myeloid leukaemia in South African broiler breeders [abstract] 55
Feline herpesvirus infection in a group of semi-captive cheetahs 132

Wildlife/exotic animals
Cryptococcosis in captive cheetah (Acinonyx jubatus): two cases .................................................. 35
Feline herpesvirus infection in a group of semi-captive cheetahs .................................................. 132
Etorphine-halothane anaesthesia in two five-year-old African elephants (Loxodonta africana). .................. 164

Continuing education
Feline transfusion practice in South Africa: current status and practical solutions ..................................... 135
Water intoxication in cattle .................................................................................................................. 177

Abstracts
Parasitological Society of Southern Africa – 26th Annual Scientific Meeting ........................................... 43
Laboratory Diagnosticians Group of the South African Veterinary Association/State Veterinarians – Annual Scientific Meeting ........................................................... 50

Book reviews
Proceedings of a symposium on cheetahs as game ranch animals .......................................................... 13
Toxic plants and other natural toxicants ............................................................................................... 28
Evaluation of certain veterinary drug residues in food ........................................................................... 57
The genetics of the pig .......................................................................................................................... 89
Rhino ranching: a manual for owners of white rhino .............................................................................. 101
A quantitative biology of the pig ........................................................................................................... 111
Response in the yield of milk constituents too the intake of nutrients by dairy cows, AFRC Technical Committee on Responses to Nutrients, Report No. 11 ........................................................................................................... 121
Grass for dairy cattle ............................................................................................................................ 126
The use of drugs in food animals: benefits and risks .............................................................................. 134
Fish diseases and disorders .................................................................................................................... 146
Tsetse biology and ecology: their role in the epidemiology and control of trypanosomosis ................... 176
The economics of animal disease control ............................................................................................... 179
Equine reproductive physiology, breeding and stud management .......................................................... 180
